TABLE OF CONTENT

1. INTRODUCTION

Research Scholar management system is the process of uploading the research paper details to HOD and IQAC to know the number of papers published between the departments. Since the emergence of the world wide web, all the details should be properly managed and known by the Faculty, HOD and IQAC.

This web-based application provides an efficient way for faculty, HOD and IQAC to upload all the research papers and know all the details about the paper by department wise. And the college knows. This project aims to improve facilities within the college campus, reduce administrative costs and ensure better utilization of administration.

The main objective of the project is to create a research scholar management system that allows the faculty to upload all the details of research paper along with the pdf and they can view the uploaded files with all the details of the paper and print all the details. And also, the faculty can calculate the h-index.

Department HOD can see number of papers to released and know all details of paper with pdf and they can print all details. And also know the H-index.

Also, IQAC administration can see the number of papers to be released and know all the paper details with pdf by department wise listing and they can print all the details. And also know the H-index.

4. DATA DICTIONARY:

1. **Table Name:** login

Sno	Name	Datatype	Size	Comments
1	s_id	Varchar	100	ID (Primary key)
2	password	Varchar	100	Password
3	position	Varchar	100	Position
4	dept	Varchar	100	Department

2. **Table Name:** user_details

Sno	Name	Datatype	Size	Comments
1	s_id	Varchar	100	ID
2	name	Varchar	100	Password
3	email	Varchar	100	Position
4	quali	Varchar	100	Qualification
5	img	Varchar	100	Image
6	guidename	Varchar	100	Guide Name
7	approval	Varchar	100	Approval Form
8	npaper	NVarchar	100	No. of Paper published
9	dept	Varchar	100	Department

3. Table Name: journal_details

Sno	Name	Datatype	Size	Comments
1	s_id	Varchar	100	ID
2	name	Varchar	100	Name
3	guidename	Varchar	100	Guide Name
4	journalname	Varchar	100	Journal Name
5	journaltype	Varchar	100	Journal Type
6	hindex	int	100	H – index
7	papertitle	Varchar	100	Paper Title
8	impactfactor	NVarchar	100	Impact Factor
9	issuedate	date	100	Issue Date
10	author	varchar	100	Author
11	pdf	NVarchar	100	PDF file
12	udate	date	100	Uploaded Date
13	dept	Varchar	100	Department
